Pressures	167.0	194.0
Territory Index	39	37.7
Progressive Actions	206.0	184.0
Final Third Entries	51	48
Box Entries	38	25

Interpretation Boundaries

- Event data describes recorded actions rather than continuous optical-tracking positions.
- Project-defined indicators such as territory and progressive actions should be interpreted according to their stated methodology.
- Comparison results should be interpreted in tactical and positional context rather than as absolute player or team quality rankings.
